	<p>Mark Phillips, RVP Data & Analytics Sales Federica Pisano, Solution Consultant for Analytics</p>	<p>Guidewire platform is designed to transform the way companies create, launch, and manage new insurance products. And with Guidewire Analytics, you can turn your system of record into a system of insight.</p>	<p>@Guidewire_PandC Guidewire Software www.guidewire.com InsTech Member</p>
	<p>Christian van Leeuwen, Co-founder & CSO</p>	<p>FRISS is 100% focused on automated fraud, risk and compliance solutions for P&C insurance companies worldwide. Their AI-powered solutions are available for Underwriting, Claims, and SIU, offering support for full end-to-end digital processing.</p>	<p>@Friss_com FRISS www.friss.com InsTech Member</p>
	<p>Siddhartha Jha, Founder, Chairman & CEO</p>	<p>Arbol is a global climate risk coverage platform and FinTech company offering solutions for any business looking to analyse and mitigate exposure to climate risk. Arbol's products offer parametric coverage which pays out based on objective data triggers. Arbol's key differentiator versus traditional Insurtech or climate analytics platforms is the complete ecosystem it has built to address climate risk. This ecosystem includes climate data that combines various factors such as instant pricing and scalable product development to bring scale, transparency, and efficiency to parametric coverage.</p>	<p>@ArbolMarket Arbol www.arbolmarket.com InsTech Member</p>
	<p>Paul Templar, CEO John Messer Investments, Tenzing Private Equity</p>	<p>VIPR offers data management technology for insurers, brokers and MGAs. Its product offerings support the management of delegated authority portfolios, increase operational efficiencies and address compliance and regulatory requirements. Consistent data can be shared downstream with brokers and insurers via traditional bordereaux, real time data exchange via API and direct exchange of analytics, enabling them to track their underwriting and operational performance.</p>	<p>@VIPR_Solutions VIPR Ltd www.viprsolutions.com InsTech Member</p>

	<p>Johnny McCord, Founder & CEO</p>	<p>Loadsure, an international Insurtech Managing General Agent (MGA) and Lloyd's coverholder, leverages AI and automation to provide pay-as-you-go, digital insurance for brokers, shippers, and carriers. Through Loadsure.net and leading TMS platforms, transactional coverage can be automated—or secured in less than 40 seconds—with claims resolved in minutes.</p>	<p>@Loadsurenw Loadsure www.loadsure.net InsTech Member</p>
	<p>Andrew Yeoman, Co-founder & CEO</p>	<p>Concirus supports the specialty marine and commercial automotive insurance industries. They combined deep domain expertise and data science to create Quest, the big data and machine learning platform. It provides Underwriters and Brokers with insights and rating factors that help innovate, improve performance, and drive down operating costs. Insights include proprietary behavioral data from predictive models and underwriting techniques in the insurance market.</p>	<p>@concirus Concirus www.concirus.ai InsTech Member</p>

Brian O'Reilly
Head of Innovation

Greenlight Re is a NASDAQ-listed company with specialist property and casualty reinsurance companies based in the Cayman Islands and Ireland. Greenlight Re provides risk management products and services to the insurance, reinsurance and other risk marketplaces. Greenlight Re has operations in the Cayman Islands and Ireland, both of which are rated "A-" Excellent by A.M. Best. The company offers risk solutions to clients and brokers who value the company's expertise, analytics and customer service. Greenlight Re manages its assets according to a value-oriented equity-focused strategy that supports the goal of long-term growth in book value per share. In 2018, the company set up Greenlight Re Innovations, which focuses on investing in insurance technology (insurtech) businesses.

Continuing Professional Development

InsTech is accredited by The Chartered Insurance Institute (CII).

By attending an InsTech live event, you can claim up to 1.5 CPD hours towards the CII member CPD scheme.

Let us know you attended the event by emailing cpd@instech.co and if your organisation is a member of InsTech, you will receive a quarterly summary of the CPD hours you have earned.

For CPD purposes, the Learning Objectives for this event are:

- Identify analytical solutions being offered by both new and established companies to insurers
- Describe some of the problems that insurers are using tech solutions to solve in the underwriting process
- Outline the potential sources of information that analytical solutions might draw from

Please take a minute to fill in this short [CPD feedback form](#) and let us know what you thought of this event.
