**Introductions – Paolo Cuomo, Co-Founder for InsTech London and Tom Payne, Market Operations Director for LMA  
Lloyd’s Innovation Lab – the latest news from Trevor Maynard, Head of Innovation at Lloyd’s  
Keynote presentation - from what3words’ Strategic Partnership Director**

	<b>Flock</b>	<b>Matt Cleary John Rowlands</b>	Flock is a VC & Government backed start-up who have built the ‘world’s smartest drone insurance’ platform. Flock has partnered with Allianz to launch drone insurance on a ‘pay-as-you-fly’ basis. Flock’s wider vision is to pioneer the use of real-time data in insurance.	<b>@flockcover <a href="http://flockcover.com">flockcover.com</a></b>
	<b>Cytora</b>	<b>Richard Hartley</b>	Cytora is an artificial intelligence company powering a new way for commercial insurers to target, select and price risk. With the Cytora Risk Engine, insurers can measurably grow premium and improve loss ratios while delivering fairer and more accurate prices to customers	<b>@cytora <a href="http://cytora.com">cytora.com</a></b>
	<b>McKenzie</b>	<b>Forbes McKenzie Zosia Krajewska</b>	MIS, provides actionable intelligence to the global financial and insurance industries after continental scale natural catastrophes. MIS collates and analyses data from satellites, sensors and IoT devices through its SaaS portal in the form of interactive maps, raw data and written reports	<b>@Mckenzie_Int <a href="http://mckenzieintelligence.co.uk">mckenzieintelligence.co.uk</a></b>
	<b>Whitespace</b>	<b>Jody Wilkinson</b>	Whitespace enables the (Re)Insurance industries to fully digitise and integrate with the placing process right from the outset. Based on a distributed database architecture, it is a state of the art, multi-platform computer system designed for mobile and desktop use alike.	<b>@WhitespaceSLTD <a href="http://whitespace.co.uk">whitespace.co.uk</a></b>
	<b>Insurwave EY</b>	<b>Sagar Khandelwal</b>	Insurwave is the world’s first marine insurance blockchain platform launched by EY with Microsoft, Guardtime, and A.P. Moller-Maersk; key insurance leaders Willis Towers Watson, XL Catlin, and MS Amlin; and ACORD to help the industry manage risk and cost using automated ledger transactions	<b>#Insurwave <a href="http://www.ey.com/gl/en/industries/financial-services/insurance/">www.ey.com/gl/en/industries/financial-services/insurance/</a></b>
	<b>Concirus</b>	<b>Rob Windsor-Clive</b>	Concirus created Quest, real-time behavioural insights software for marine insurance. It accesses and interprets large sets of data (vessel statistics, movements or localised weather information), and combines this with historical claims information to reveal the behaviours that correlate to claims	<b>@Concirus <a href="http://concirus.com">concirus.com</a></b>
	<b>Shift Technology</b>	<b>Jeff Manricks</b>	Shift Technology are helping insurer clients to win the war against insurance fraud & automation of the claims process, solely focused on the global insurance sector, Shift exploit the best of AI and Machine Learning to help insures save money and maintain the highest customer satisfaction	<b>@shiftechnology <a href="http://www.shift-technology.com">www.shift-technology.com</a></b>
	<b>Chain That</b>	<b>David Edwards</b>	ChainThat brings efficiency to insurance business networks using Distributed Ledger Technology and Smart Contracts to instantly synchronise and automate operational processes. Its end-to-end suite of products makes every component of issuing and managing policy lifecycles more efficient	<b>@chain_that <a href="http://chainthat.com">chainthat.com</a></b>
