	<p>Rodrigo Jesus CEO</p>	<p>L3M Technologies work at the intersection of healthcare and wellness, creating digital solutions that offer tailored recommendations and help people when they most need it. Their human performance model, powered by McLaren Applied Technologies, combines real-life data with personalised insights. They are starting with a product for pre and postnatal women and there will be more new solutions to come soon.</p>	<p>@L3mTechnologies Li: l3m-technologies www.lm3tech.com</p>	<p>12</p>
	<p>Bob Moens B2B Partnerships</p>	<p>SkinVision is a validated service for people to check their skin for signs of cancer, using their smartphone. Every picture is being checked by ML algorithm and quality assured by a dermatologist. This way SkinVision significantly reduces the unnecessary 2-week-wait referrals to the understaffed dermatologists. Cancers are detected earlier, and patients have faster access to treatment. They are supported by NHS in 2 accelerator programs.</p>	<p>@SknVsn IG: sknvsn Li: skinvision www.skinvision.com</p>	<p>13</p>
	<p>Dr Bippon Vinayak Founder & Chairman of Group</p>	<p>Square Health was founded by the team behind the Doctors Chambers group and was set up to provide holistic medical, technological and claims-related solutions for insurers. They offer a range of medical services including medical screening, 2nd opinion services, health MOTs, appointment booking services, virtual and face-to-face GP consultations, specialist referrals, physiotherapy sessions, counselling and dietician appointments— all of which can be arranged in short timescales and are supported via our bespoke technology and software.</p>	<p>@squarehealthltd Li: square-health www.squarehealth.com</p>	<p>14</p>
	<p>Emma Jones Executive Director, UW Innovation & Strategic Development, EMEA</p>	<p>RGAX is the “transformation engine” of Reinsurance Group of America, a global provider of life reinsurance and Fortune 500 company. Together RGA and RGAX are exploring new opportunities, expanding the footprint of the life insurance ecosystem, and accelerating the development of new solutions and services to inspire greater consumer engagement. UnderwritingPal is a new automated UW solution powered by RGA's e-underwriting engine, AURA. UnderwritingPal utilises behavioural science techniques and RGA's UW expertise to provide an optimised, direct to consumer UW service. Utilising AURA's AWS-deployed technology stack and APIs, users of UnderwritingPal can fully customise the UI to provide a first class, mobile friendly, user experience.</p>	<p>@RGAXGlobal FB: RGAXGlobal Li: rgax www.rgax.com</p>	<p>15</p>
	<p>Sandro Matter Co-Founder</p>	<p>Vlot helps individuals navigate the complex world of state and employer related risk benefits by providing income gap analysis. With a B2C DNA, the company today focuses on B2B white-labeled solutions for insurers, banks and corporates. Vlot's ACP – Analysis – Coverage – Process – modules deliver holistic advice, create valuable leads and unlock untapped revenue streams through the trusted channel of employers.</p>	<p>@vlotltd Li: vlot-ltd www.vlot.ch</p>	<p>16</p>
	<p>Josh Hart Co-Founder</p>	<p>yulife is a London based life insurance company that inspires life. Driven by a mission of helping every person to be their best self, the company rewards its members for living well now, as well as protecting their loved ones in the future.
