	<p><b>Todd Rissel</b> CEO</p>	<p>e2Value is a full-service application development and technology provider that offers products to assist with asset valuation. Its tools can be used for collateral asset valuation, risk management and predictive modeling. e2Value's softwares helps deliver valuations for residential, commercial and farm and ranch properties in the US and Canada.</p>	<p><a href="#">@e2Value</a> <a href="#">Li: e2value</a> <a href="#">www.e2value.com</a> <a href="#">InsTech London Member</a></p>
	<p><b>Mark Cunningham</b> Co-founder &amp; CEO</p>	<p>WhenFresh specialises in UK residential property data, combining property data assets with data science capabilities and flexible API delivery. WhenFresh is part-owned by CLS, a leading MGA of ERGO (Munich Re), and provides data and related solutions to banks, home insurers, the Bank of England, Twenty7Tec, fintechs such as MQube and insurtechs such as Uinsure and Hiro.</p>	<p><a href="#">@WhenFresh</a> <a href="#">Li: WhenFresh</a> <a href="#">www.whenfresh.com</a> <a href="#">InsTech London Member</a></p>
	<p><b>Olivia Itcheva</b> Portfolio Optimisation</p>	<p>Convex is a specialty insurer and reinsurer focused on complex risks, claims and underwriting across a wide range of business. It offers risk solutions for marine, equine, aerospace, casualty, crisis management, energy, property, accident and health and political risk and credit. It was founded in 2019, so has no legacy systems.</p>	<p><a href="#">@ConvexIn</a> <a href="#">Li: Convex Insurance</a> <a href="#">www.convexin.com</a> <a href="#">InsTech London Member</a></p>
	<p><b>Anthony Siggers</b> Co-founder and Chief Product Officer</p>	<p>Archipelago is a risk data platform helping large commercial property owners manage their data, assess their risks, and efficiently connect to their insurers. Archipelago's platform digitises risk, enriches data, and connects risk managers, brokers, and insurers during renewals.</p>	<p><a href="#">@OnArchipelago</a> <a href="#">Li: Archipelago</a> <a href="#">www.onarchipelago.com</a> <a href="#">InsTech London Member</a></p>
	<p><b>Jonathan Newbery</b> Head of Digital Experience</p>	<p>Zurich is a multi-line insurer that serves customers in global and local markets. It provides a wide range of property and casualty and life insurance products in more than 215 countries and territories. Zurich's customers include individuals, small businesses, mid-sized and large companies, as well as multinational corporations.</p>	<p><a href="#">@Zurich</a> <a href="#">Li: Zurich Commercial Insurance</a> <a href="#">www.zurich.com</a></p>
	<p><b>Jonathan Jackson</b> CEO</p>	<p>Previsico are surface water flood forecasting specialists enabling people and organisations to minimise the impact of flooding. Backed by Foresight Group and underpinned by two decades of research at Loughborough University, Previsico's world leading solution is used by insurers, businesses and government to reduce their losses.</p>	<p><a href="#">@Previsico</a> <a href="#">Li: Previsico</a> <a href="#">www.previsico.com</a> <a href="#">InsTech London Member</a></p>
	<p><b>Jay Gentry</b> Head of Insurance</p>	<p>SafeGraph is a global geospatial data company that offers data on any place in the world. Customers like Esri, Tripadvisor, Mapbox, and Sysco use SafeGraph data to better understand their customers, create new products, and make better decisions for their business.</p>	<p><a href="#">@SafeGraph</a> <a href="#">Li: SafeGraph</a> <a href="#">www.safegraph.com</a> <a href="#">InsTech London Member</a></p>
	<p><b>Bob Frady</b> VP, HazardHub</p>	<p>HazardHub provides data to assist insurers in the US assessing the perils that could impact properties that they are underwriting, and it is now part of Guidewire. Over 400 insurers, from new ventures to the larger and more complex insurers, run on Guidewire. Guidewire's marketplace provides hundreds of applications that accelerate</p>	<p><a href="#">@Guidewire_PandC</a> <a href="#">Li: Guidewire Software</a></p>

		integration, localisation, and innovation.	<a href="http://www.guidewire.com">www.guidewire.com</a> InsTech London Member
	<b>Anthony Peake</b> CEO	Intelligent AI delivers its Intelligent Risk Underwriting Platform with AI, data analytics and location intelligence solutions to predict and mitigate global risk and bring clarity to insurers' portfolios. The company uses AI document reading, satellite image analysis and Digital Twins. Intelligent AI has worked with the Lloyd's Lab on validating the use of Digital Twins in commercial property insurance, and has recently won the ACORD Global Innovation Challenge.	<a href="https://twitter.com/IntelligentAIUK">@IntelligentAIUK</a> <a href="https://www.intelligentai.co.uk">Li: Intelligent AI Limited</a> <a href="http://www.intelligentai.co.uk">www.intelligentai.co.uk</a>
	<b>Laurent de la Porte</b> CEO	Allphins is a data analytics and technology platform, primarily intended for reinsurers. The initial focus has been on allowing (re)insurers to manage energy-related exposures both offshore, onshore and for renewables. It is now offering services in other classes of risk including political, credit, terror and cyber. Allphins was part of the Lloyd's Lab cohort 3.	<a href="https://twitter.com/Allphins1">@Allphins1</a> <a href="https://www.allphins.com">Li: Allphins</a> <a href="http://www.allphins.com">www.allphins.com</a> InsTech London Member
20:00	<b>SHOUT OUTS</b>	5 startups or insurance innovators to present their initiatives in front of the InsTech London audience. Each for 60 seconds. Get your notes ready.	20:10

### Continuing Professional Development

InsTech London is accredited by The Chartered Insurance Institute (CII).

By attending an InsTech London live event, you can claim up to 1.5 CPD hours towards the CII member CPD scheme.

Let us know you attended the event by emailing [cpd@instech.london](mailto:cpd@instech.london) and if your organisation is a member of InsTech London, you will receive a quarterly summary of the CPD hours you have earned.

For CPD purposes, the Learning Objectives for this event are:

- Recognise certain types of property data and analytics that can really add value for insurers
- Understand how data and analytics can significantly increase the accuracy of property underwriting
- Compare how some existing solutions, both emerging and well-established, are already benefiting insurers

Please take a minute to fill in this short CPD [feedback form](#) and let us know what you thought of this event.
